PROFESSIONAL SUMMARY

Software engineer and AI developer in Kenya, in the final year of a Bachelor of Technology at the Technical University of Kenya. I build AI-powered tools and full-stack web platforms for agriculture, healthcare, sports and education, and have shipped seven projects, six of them live, using React, Next.js, TypeScript, Python, FastAPI and PostgreSQL, with Claude and Gemini behind the AI features. Currently training in AI and Software Development with Power Learn Project Africa and in the Software Engineering Programme at Zone01 Kisumu. Competitive hockey player in the Kenya Hockey Union league.

EDUCATION & TRAINING

Bachelor of Technology (final year) 2020 – Present
Technical University of Kenya (TUK), Nairobi

Software Engineering Programme Current
Zone01 Kisumu · Go track: Algorithms & Data Structures

AI & Software Development Current
Power Learn Project Africa

Kenya Certificate of Secondary Education (KCSE) 2016
Ramba High School

Kenya Certificate of Primary Education (KCPE) 2011
M.M. Shah Primary School

TECHNICAL SKILLS

Languages:	Python, TypeScript, JavaScript, Go (Golang), PHP, C/C++ (Arduino)
Frontend:	React, Next.js, Tailwind CSS, Flutter, HTML5/CSS3, PWAs
Backend & data:	FastAPI, Node.js, REST APIs, PostgreSQL, SQLite, Supabase, Prisma
AI & automation:	Multi-agent systems, Claude API, Gemini, Prompt Engineering, n8n, Google Apps Script, rules engines
DevOps & tooling:	Git, GitHub, GitHub Actions, Docker, Vercel, Linux/Bash
Embedded & IoT:	Arduino Uno, PIR/ultrasonic sensors, servo motors, non-blocking firmware

PROJECT EXPERIENCE

Kenya Hockey Union Live 2025
Fan-built installable PWA · React, FastAPI, SQLite · khu-live-app.vercel.app
- Live standings across 8 KHU leagues, match-state tracking, favourite teams with scoped push notifications and offline caching.
- Fed by a rate-limited scraper with a circuit breaker.

AgriPulse AI 2024 – 2025
AI agronomy platform · Python, FastAPI, React, Gemini, Supabase
- Agronomy assistant for Kenyan smallholder farmers in English, Swahili and local dialects.
- Identifies crop disease with Gemini, pulls county-level weather and recommends locally available agrochemicals with KES pricing.

Off-Pitch Africa
Sports media website · JavaScript, Vercel, Claude API · offpitchafrica.com
- Multi-page site with a Claude-powered chat assistant, live YouTube, Instagram and Facebook feeds, and a password-protected admin dashboard.

MediTriage AI (team prototype) 2026
Healthcare triage · Next.js, FastAPI · GOMYCODE Come Build with AI hackathon, Team 104
- Bilingual (English/Swahili) triage tool using a deterministic rule engine; the LLM only structures and phrases, it never decides.

AttachKenya
Education tech · Next.js, TypeScript, Supabase, Claude API
- Matching system giving transparent 0–100 placement scores from a weighted rules engine, with Claude-drafted cover letters and an application tracker.

Kisumu Young Stars Hockey Club system
Club management · FastAPI, PostgreSQL, React, TypeScript · kyhc.vercel.app
- Role-based API with OAuth2 JWT authentication and seven permission levels, tested and shipped through GitHub Actions.

Ikinai Media
Media website and CMS · Next.js, TypeScript, Prisma, PostgreSQL · ikinai-media.vercel.app
- Public site with an admin dashboard for publishing news, managing portfolio items and reviewing enquiries.

Smart Automated Scarecrow (final-year project) 2024 – 2025
Technical University of Kenya
- Solar-powered bird deterrent: PIR and ultrasonic sensors with an Arduino Uno driving servo motors and a buzzer.
- Wrote production-grade non-blocking firmware using a state machine architecture.

PROFESSIONAL EXPERIENCE

Logistics Coordinator / Assistant 2023
Gantad Logistics Company | Nairobi, Kenya
- Coordinated logistics operations, shipment scheduling and supply chain documentation.
- Worked on delivery routes and turnaround times; managed vendor communications and records.

Technical Support & Wi-Fi Installation Technician 2020 – 2022
Safaricom Agent Network | Kenya
- Installed and configured Wi-Fi equipment and last-mile internet for residential and SME clients.
- Troubleshot connectivity and hardware faults and trained users on their equipment.

SPORTS

Professional Hockey Player – Kisumu Young Stars Hockey Club (KYHC) 2020 – Present
Kenya Hockey Union (KHU) League
- Compete in the national Kenya Hockey Union league; built the club's management system and a live league app.
